## Trustee Nominations 2020

### **David Duffus**

I have lived in Dollar for 14 years. I have been a Trustee for the last year. I lead the operations side of the Hive activities, writing / updating the HSE procedures, doing weekly checks, including ensuring a safe location for the community larder. I am currently doing the Risk Assessments for future reopenings of the library / fitness classes. I also help with tidying the area outside the Hive, lead the community tree planting and started work on a potential future community garden. I would intend to develop these community activities further in the future.

### **Norman Dunning**

I have worked for charities for over 40 years, have been a trustee and office bearer in other national and local charities and undertaken advisory roles in government and universities. Since retirement, I have been an independent child protection chair and vice-chair of the Mental Welfare Commission. I currently chair a local charity for disabled people and a Scottish fund-giving trust. I took part in the steering group which set up DCDT and have served as secretary since it was established in 2017 and believe I can continue to make a contribution to the governance and management of the Trust.

### **William Osborne**

I've been a Chartered Accountant for over forty years in Scotland, Brazil and England.

For the last few months since I was co-opted, I've organized the book-keeping, simplified the banking arrangements (no more cheques), prepared the month-by-month financial projections for the five years ending 31 March 2025 and prepared the statutory financial accounts for the year ended 31 March 2020.

There is still much to be done and I think my experience in the role will facilitate the on-going work.

### **Nicholas Poett**

I live and farm at Harviestoun between Tillicoultry and Dollar. I would like to be considered again as a trustee as I hope through the Harviestoun masterplan, that has been produced for some of the land around Dollar, I can help with many of the aspects of the recent 2012 and 2016 Community Action Plans which I have been involved with. I hope that I can provide some experience and advice from a land based perspective. I am a co-opted member of the community council, and have been for a number of years. I have an interest in all aspects of the community and in trying to make Dollar a better place to live and work, but I am particularly interested in renewable energy and in trying to improve tourism in the area and in developing the Community Garden identified as part of the Harviestoun masterplan.
